

# THE Gleichen Call

TWENTY-SECOND YEAR NO. 32

GLEICHEN, ALBERTA, WEDNESDAY OCTOBER 31, 1928

SUBSCRIPTION \$2.00 PER YEAR

## Jos. H. Shaw Delivered Excellent Address

The address delivered last Wednesday night in the Gleichen Community Hall dining room by Jos. H. Shaw, M. L. A., is admitted by the members of the Gleichen Canadian Club to be the most interesting yet delivered under the auspices of the club. The room was filled with the members, the pupils of the higher grades and a few others, and the speaker was given an excellent hearing throughout his necessarily long lecture, which occupied almost an hour and three-quarters.

His subject was titled, "The Map of Europe Since the Great War," which Mr. Shaw illustrated with the use of a map that showed in colors the various boundaries of the countries as they were previous to the war, while the present or new boundaries were marked off in red. Few, if any, present fully realized the great changes made in Europe and the masterful explanation by Mr. Shaw of why and how these changes were made proved wonderfully helpful in understanding the situation as it stands today.

The only regret is that the time was too short to grasp the many facts brought out, as Rev. Mr. Davies stated in moving a vote of thanks to the speaker it would be better if the subjects could have been spread over a week.

Mr. Shaw is no stranger to Gleichen being born in Alberta and was in Gleichen when this town was a divisional railway point and also spoke here during political contests and it is hoped by all who heard him he will favor Gleichen with more such interesting addresses.

During the evening Mrs. Maclean and Mrs. Gibney favored the audience with solos accompanied by Mrs. Egelse on the piano.

## POLICE DOGS HAD IMPORTANT PART TO PLAY IN WAR

Carried Orders Through Gunfire When Wires Had All Failed

Helped to Defeat Russia

Few people outside of the intelligence department of the army realize the important part played by the police dogs in the World War, along a battle front which stretched for hundreds of miles and where nearly every yard of territory was swept continuously by a hail of shells, bullets, grenades and a fog of poisonous gas.

While practically all bodies of troops used these intelligent animals for various military purposes, it was the Central Powers which developed them to the extent that they were relied upon on many occasions even more than great bodies of troops for victory.

Shepherd dogs had been trained by army and police for almost a quarter of a century before the war broke out. Consequently Germany and Austria were able to send thousands of these intelligent animals to the front where they performed tasks which no human being could have accomplished.

In the campaign between the Germans and Russians on the Galician front these dogs played a great part in the final defeat of the hordes of Russians sent to invade Austria. With military telegraph wires shot away and with human beings unable to make their way through the continuous gunfire the police dogs frequently carried the orders which resulted in victory for their masters.

As a tribute to the dumb heroes of the great war Metro-Goldwyn-Mayer has filmed "Under the Black Eagle," starring Flash, a gigantic police dog valued at a hundred thousand dollars and said to be the most intelligent dog in the world.

The principal romantic roles are played by Ralph Forbes and Marceline Day and supported by a cast of screen notables.

## Gleichen Town Council

A meeting of the Gleichen Town Council was held in the town office and the following were present: May-Purcell, Councillors Wade, Little, McLeod, Milliken and Brown.

Coun. Milliken moved and Coun. Little seconded that the minutes of the last meeting be adopted as read which was carried.

The secretary reported on the proposals for sewerage construction from the Eventide Home.

A letter read from C. Thompson offering \$10 per lot for lots 1 to 3 in block 7. This offer was accepted on motion of Councillors Milliken and Little.

A letter of resignation from Councillor Moss was read. But on motion of Councillors Wade and McLeod was laid on the table till next meeting.

A letter was read from the Calgary Power Company, re transfer of shares. A motion by Milliken and Wade was carried: That we give our consent to the transfer of shares from the United Electric and Engineering Co. to the Calgary Power Co. Couns. Milliken and Brown: That we approve the schedule of rates submitted by the Calgary Power Co. and that the secretary notify them accordingly.—Carried.

Couns. Brown and McLeod: That the Indian Department be charged fifty cents for each tank of water.

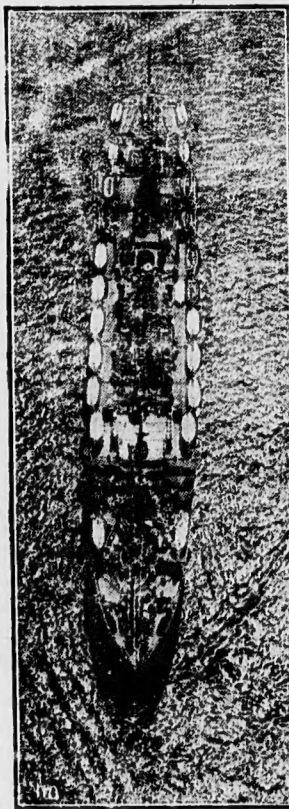

An application was received from Mr. Stubbs asking for a refund of general taxes in accordance with the original agreement. By-law No. 178 granting a refund of \$388.60 was then read three times and passed.

The statement of receipts and deposits were embodied in the minutes on motion of Couns. Milliken and Wade.

Mr. W. Sutermeister appeared before the council to make a claim for damage to his personal property by fire. On motion of Milliken and Brown it was decided to lay the matter over for further consideration and investigation.

Couns. Wade and Milliken: That the accounts as passed be paid.

## An Empress

The Canadian Pacific liner "Empress of Australia" in Southampton Roads. From a height of two thousand feet the giant liner looks like a toy boat although her registered tonnage is 21,850 gross and she is one of the largest liners to come up the St. Lawrence River.

Mrs. M. Hodge left on Tuesday morning's train for her home at Woodville, New Hampshire, after spending since July visiting her niece, Mrs. Geo. W. Hunter.

## United Church 20th Anniversary Old-Timers Service Nov. 4 Social Evening Monday, Nov. 5

Gleichen being one of the oldest towns in Alberta has long been the place of meeting for the "real old-timer." The Old-Timers' Service next Sunday, November 4th, is being much talked of throughout the community, in connection with the twentieth anniversary of the opening of the present United Church.

Rev. Joseph Lee, who was the minister in Gleichen when the present church was dedicated to the worship of God, will be the preacher for that occasion.

The church school will hold its session at the usual time, 11 a.m., when the World's Temperance Lesson will be discussed and Rev. Jos. Lee will deliver an address.

In the evening at 7:30, the usual evening service will be held. Mr. Lee will be the preacher and special music will be rendered by the choir under the leadership of Mr. D. B. Smith. Badges are being provided for the old-timers. All old-timers who have been in the district for twenty years or more will wear a red badge and all who have been in the district for fifteen years up to twenty will wear a blue badge. Badges may be obtained at the church door. On Monday evening, November 5th,

a congregational social will be held in the church when all friends and members of the congregation are invited to be present. An interesting musical program will be rendered, reminiscent address by Rev. Jos. Lee will be given and a social hour will be enjoyed by the old-timers and the newcomers. The committee have sent out a number of letters to former ministers asking for a letter that may be read to the congregation on Monday evening. Replies to the request of the committee are arriving on every mail, many of which contain not only an interesting story of the early days of Gleichen, but the most kindly references to the old-timers, who have made such a large contribution to the life of the district.

Altogether this "Old-Timers Service" promises to be an interesting event. A very hearty invitation is hereby extended to the people of Gleichen and district to be present at these services.

## CLUNY

On Sunday, November 4th, a special Harvest Thanksgiving Service will be held in the Cluny United Church at 2:45 p.m. Rev. Jos. Lee, of Barons, secretary of the Alberta Conference of the United Church, will be the special preacher. All are welcome.

## D. RONALD ELDER

The demise of D. Ronald Elder, on Wednesday last in the Central Alberta Sanatorium, at Calgary, was occasion for profound and wide-spread regret throughout the Gleichen district, being one of our most popular and prosperous farmers north of town.

The funeral service was conducted in Calgary, Friday afternoon, entertainment being made in the Burnsland cemetery, and conducted by the Rev. Dr. H. H. Bingham of Calgary. Some thirty of his friends in this district followed to Calgary to attend the funeral in order to show the esteem, friendship and respect they had for the departed one. There was a wonderful amount of floral offerings.

Deceased was born in Huntington, Quebec, and came to Alberta in 1907, settling north of Gleichen, where he had farmed since except for a short time in the Youngstown district. In 1921 he married Miss Lois McDowell, of Sunnyside, Alberta. He is survived by his widow, four children, two sisters, Miss Elsie Elder and Miss Rubie Munroe, of Huntington, Quebec. At the time of his death deceased was serving his second term of office on the council of the Blackfoot municipality, resigning this summer owing to his illness.

He successfully operated one of the biggest farms in the Gleichen district and took a keen interest in all things pertaining to the welfare of the community and will be a distinct loss to one and all.

For the past several years he has not enjoyed good health and his demise was not unexpected.

Among the floral offerings the following were noted:

Wife and children; father and mother; Agnes and Willard; Mr. and Mrs. Bird and family; Mr. and Mrs. Schreiber; Mr. and Mrs. H. H. Ellis; Mr. and Mrs. H. P. Hansen; Mr. and Mrs. F. Dankwerth; Mr. and Mrs. A. Robertson and son; Mr. and Mrs. J. O. Bogstie; Mr. and Mrs. F. Hehner; officers and staff Alberta Pacific Grain Co.; Mr. and Mrs. Alex Williamson; Mr. Geo. Green and family; Mr. and Mrs. John Olsen; Mr. and Mrs. Harry Dankwerth; Mr. and Mrs.

N. A. Peterson; Mr. and Mrs. Carl Sheehy; Mr. and Mrs. M. C. Devitte; Mr. A. Woodley; Mr. O. Desjardine; Mr. and Mrs. J. Deschamps; Blackfoot Municipality; Miss C. Murdoch; Mr. and Mrs. O. N. Johnston; Mr. and Mrs. Morris; Gleichen U. F. W. A.; Mr. and Mrs. T. Thorssen; Mr. and Mrs. J. A. Grant and family; Mr. and Mrs. J. Craig Crakovski; Mr. and Mrs. N. W. Thompson; Mr. and Mrs. Geo. Collins; Mr. and Mrs. J. C. Nelson; M. A. Anderson and family.

## WHEAT CROP HARVESTED

(By John Giambeck)

The great 1928 bumper crop grown in this district, has at last been gathered in and no doubt by the time this appears in print, the last bundle will have passed through the threshing machine.

This crop which has made Canada famous and about which column after column has been written both in Canada and the United States, has been of a rather mixed blessing to the wheat growers. Those who were lucky enough to put in a large acreage on stubble, getting from 25 to 35 bushels per acre, grading No. 2 and No. 3, are the wheat kings this year, while the rest of the poor dubs, sowing wheat on nothing but well prepared summer fallow, having been blown out or later frozen out, getting grades 5 and 6 and feed for the wheat, at the present low price, are wondering how they are going to get enough money to pay their thresh bill.

Of course there will be no kick on the yield. A few in this district claim to have had over 60 bushels to the acre, while quite a few had between 50 and 60 bushels and nobody whose land did not blow had less than 40 bushels, or if they did they are now crowing about it. No, the trouble comes when you haul your wheat to the elevator and when the elevator man looks at it and tells you the grade it gives you a pain below the belt. One thing they can't put over us this year is grading our wheat tough, and as Harry Lauder says about the man who is able to cough

at 74 "he has one on the doctors," so we have one on the elevator man, only he get back at us on the frozen wheat.

Did you ever hear the story about the farmer having a hail-ranch? You know there are stretches of country apparently more subject to hail than others. Well this farmer lived in such a district, put a good insurance on his crop every year, and was regularly hailed out and made a good living out of it. Then one year he failed to get hail and as he had to pay the premium out of his own pocket and go to a lot of expense taking out the crop he went broke.

Now this is about the way some of the farmers with a big crop of frozen wheat stands along side of those who were hailed out last summer. As you will remember a six mile wide hailstorm passed over the north end of our district practically making a clean sweep of it. Those with no hail insurance were left out in the cold but I think the rest with good insurance are away ahead of the man with a big crop of frozen wheat, at least those hailed out did not have all the work and expense of taking off the crop. But perhaps, considering that in 20 years we have only had three years in which our crop has been damaged by frost, we have no reason to kick. Still at times a little kicking and swearing sort of relieves a man of his pent up feelings. After all this wheat growing is more or less of a gamble. Of course, we are told, that good farming always pays and perhaps it does, but the man who in the spring can predict what kind of farming is going to pay best is the wise guy.

Our seven elevators are plugged to the roof and cars are at a premium. Our absentee landowners have all been here and are mostly gone back again.

A number of Milottes are considering going away for a time this winter. Jack Dietz and wife left for South Dakota last week and Mr. and Mrs. and Mrs. A. Alston are preparing for a trip to Chicago soon.

While the C.P.R. has not so far seen its way clear to extend our stub line into Calgary, we have received some consideration. We now have a daily train, six days in the week, outside the regular wheat trains and get our mail every day.

## Town and District News

The death of Rosemary, the infant daughter of Mr. and Mrs. R. E. Hill of Arrowood, occurred Saturday night. The little girl had never enjoyed good health. The funeral took place on Monday.

E. J. Patterson of Arrowood, left last week, accompanied by his mother and little niece, Anna Hunter, to spend winter in Vancouver. Earnie has not been enjoying good health for sometime and it is hoped the change of climate will prove beneficial.

The Family Herald and Weekly Star with its wonderful improvements is now regarded as the great Agricultural Paper of Canada and the Family Circle's best magazine.

## The Grading of Wheat

The heavy frosts which descended upon Western Canada during the third week of August, had a most disastrous effect upon a large portion of the wheat crop of the prairie provinces, with a resultant lowering in grades which, in the aggregate, means a loss of many millions of dollars to the farmer-producers of the west. Just how great the loss is will probably never be accurately known, but thousands of individual farmers will, more or less correctly, estimate what it means to them. Volume of production remains, the greatest in the history of the country, but grades, and consequently prices, are seriously affected.

Under the circumstances it is but natural that an outcry is raised against the whole system of grading, and some very rash statements are indulged in. The farmer who gets Number Three feels he ought to have received Number Two, and the man who is given Number Four contends he ought to have had Number Three, and so on down the line. This is but natural, but the result is that elevator operators, whether in the Pool or line elevators, are charged with taking advantage of the situation and grading too low. Governments, both federal and provincial, are held responsible for the system of grading in vogue, although, as a matter of fact, provincial governments have nothing to do with grading, which, as a matter of trade and commerce falls solely within the jurisdiction of the Dominion. If there was any truth in the charge that the Liberal Government, in Saskatchewan, is responsible for low grading this year, then the Farmer Governments in Manitoba and Alberta are equally responsible.

The truth of the matter is, of course, that neither Liberal, Conservative, Progressive nor United Farmer Governments are responsible. It may be that the present system of grading requires revision but even that cannot be determined offhand. Canadian wheat occupies an enviable reputation in the markets of the world, and because of that reputation commands a good price. That reputation is based on the quality of our wheat, and that quality is guaranteed through our system of uniform Government inspection and grading.

It may well be that in a year like the present, a relaxation in grading would result in a larger proportion of our wheat being placed in higher grades, and better prices received by the growers. On the other hand, a lowering in the standards might very easily result in a general lowering of all prices, so that the final result would be much the same.

But assuming that this did not happen this year, the undoubted effect would be injurious to the reputation of Canadian wheat and any gain derived this year would be more than offset in other years because of the poorer reputation for all our wheat that would result. The reputation of Canada's wheat abroad is the biggest asset we have in the British and European markets, and it must be retained at all hazards. And to tamper with grading solely in order to meet climatic conditions in any one year would be fatal to that reputation.

There is this, however, to be considered. Does frost, which mars the appearance of the wheat kernels, and results in lower grading, actually impair the milling qualities of that wheat, and the baking properties of the flour made from such wheat? In other words, does frost affect the real quality of the wheat to the extent that our present standards of grading would indicate? If it does not, then it would seem that our grading need not be quite so drastic without affecting the established reputation of our wheat.

This, however, is a question that can only be determined through study, research and experimentation. It cannot be decided in a day or two, or settled by legislative enactment. The Dominion Government is fully alive to the importance of this question, and the Government Research Laboratory, working in conjunction and full co-operation with all Western universities, is engaged in the task of ascertaining the actual facts and the full truth. In this important work the three provincial governments, the Wheat Pools, and the United Farmer organizations are all assisting.

Pending the result of such searching investigations, it is a mistake and unpatriotic for anybody to seek to inflame public opinion out of an unfortunate condition resulting from the vagaries of the weather which no man, or body of men, can direct or control. Rather should every man and every organization having the best interests of Canada at heart do what lies in their power to assist in this great work to the end that all may benefit.

### Movies For Airplanes

Movies while flying may soon be regularly viewed by patrons of airplane services. A New York concern has announced the experimental run of a plane aboard which will be a moving picture show. The film shown will be one of the new vitaphone creations, in which actors speak their parts. If the plan is successful, it is predicted that passenger planes in future will all be fitted with a "theatre."

By the time most of us find ourselves with money to invest the bargains are gone, and when the bargains are back on the counter we have no money.

One formula for finding out how long one should live is: Add the lives of your parents and four grandparents; divide the total by six and for every five years that exceeds sixty, add a year. The result is the length of your life.

Parson (to mother of baby he is about to christen): "How do you spell her name—Anna or Hannah?" Mother: "I don't know, sir. I ain't no scholar either."

A wealthy American declares his intention of not marrying a woman who talks a lot. Of course, if he wants to remain single, that is his own affair.

## Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### Want Tariff On Berries

B.C. Fruit Growers Want Seasonal Tariff On Importation From U.S.

A request for a reasonable tariff from May 15 until July 31, yearly, to apply on importations of United States strawberries to prairie points in advance of the arrival of British Columbia fruit was made by a delegation of Saanich fruit growers in representations made to Hon. W. D. Euler, minister of national revenue, and Hon. Dr. J. H. King, minister of health, in a conference at Victoria. Mr. Euler asked if it was the intention of the delegation to ask for a high tariff that would prohibit all buying.

They explained that the growers wished a reasonable tariff, not necessarily a high one, but one that would apply between the period of from May 15 to July 31.

The request was one that would require careful consideration and special legislation to bring into effect commented the minister, who promised to lay the matter before Hon. J. A. Robb, federal minister of finance, on his return to Ottawa.

### WEAK AND NERVOUS

A Condition Due To Watery Blood

—Easily Corrected Through the Use Of Dr. Williams' Pink Pills.

Thin, pale girls lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of thin blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed hardly worth living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that there was such an improvement in my condition that friends would ask me what I was taking, and I was only too glad to tell them it was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Canada Supports League

Membership In League Of Nations Organization Is Growing

Thousands of active supporters of the League of Nations are now organized throughout Canada. According to the general secretary of the League of Nations, in Canada, the membership of the organization here has grown in three years from less than a thousand to almost fifteen thousand in number. Although strongly supported by women's organizations, more than half the members are business men—in British Columbia the male membership running to 85 per cent.

### For Women Senators

Reported That Government Will Facilitate Further Steps To Be Taken

The Ottawa Citizen says: "Those organizations which want the right of women to sit in the Senate affirmed, are to be facilitated in the further steps they propose to take. The facility will probably take the form of the Government paying the costs of both sides in an appeal to the privy council from a judgment of the supreme court of Canada declaring women ineligible for appointment to the Senate under the B.N.A. Act as it now stands."

Mistress: "And what's your baby's name, Mandy?"

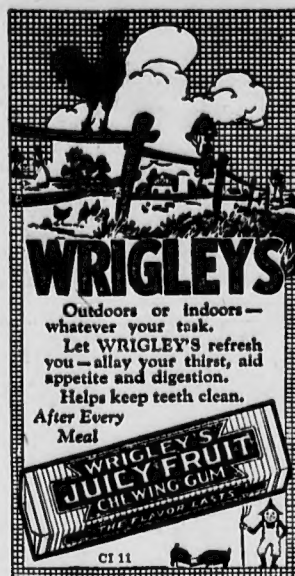

Colored Maid: "Hallud! We named him from the Bible."

Mistress: "Hallud? I never heard that before."

Maid: "Oh, yes'm. Ain't yo' never read 'Hallud be thy name'?"

### Japan's Traffic Problem

Traffic congestion has become so bad in the streets of Osaka Japan, that officials are contemplating use of the old canal. It is proposed to use boats propelled by outboard motors as a part of the municipal transportation system.

### A Remarkable Invention

Metaphone Emits Noise When Detector Comes Near Metal

Metals are made to talk by a new invention, called the "Metaphone," which is being perfected by its discoverer, Mr. W. S. Clayton. This remarkable new instrument, which resembles a wireless receiving set, emits loud noises when the "detector," which is connected with it, comes near any metal.

The possible uses to which the "Metaphone" may be put, says the London Sunday News, are almost innumerable. It can be used to detect sunken submarines, ships, and even treasure at the bottom of the sea, and with a small set it is possible to detect the presence of a knife, revolver, bunch of keys or cigarette case in a person's pocket.

Although the invention is by no means fully developed, Mr. Clayton has already conducted some satisfactory experiments at sea off the coast of British Columbia. The instrument, carried on board a salvage steamer, detected the presence of some iron wreckage well below the surface of the water. Either earphones or a loud speaker can be used in connection with the invention.

### End Season's Work

Freighters From Hudson Bay Return To Nova Scotia Ports

All freighters being used in Government work on Hudson Bay, have left for Nova Scotia ports for the winter months, according to wireless despatches received at the Department of Marine. The tug Dainty and the steamers Canadian Voyager and Odile, left Fort Churchill recently. The vessels have been used in carrying material to be used in the construction of the harbor.

A groom who had been reproved by his master for talking about the 'esses, exclaimed: "Well, if a haych an' a ho, an' a harr, an' a hess, an' a hee don't spell 'oss, my name's not 'Enry 'Omes."

Ready-made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains, it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Wife.—Do you realize that twenty-five years ago today we became married?

Absent-minded Professor.—Twenty-five years! You should have reminded me before. It's certainly time we got married!

Many mothers can testify to the virtue of Mother Graves' Worm Expeller, because they know from experience how useful it is.

Boy with one Suspender: Slouch.  
Boy with pair of Suspenders: Conservative.  
Boy with Belt and Suspenders: Pessimist.

### Rheumatism

A little Minard's rubbed into parts affected relieves rheumatic pain. Also good for bruises and sprains.

N. W. U. 1756

### Proves Airship Practicable

Zeppelin's Flight Shows It Superior To Plane For Ocean Crossing Says Expert

Captain Walter Bruns, noted aviation and Zeppelin expert, is of the opinion that the voyage of the Graf Zeppelin from Germany to the United States, has conclusively demonstrated the practicability of the airship for trans-ocean communication. "Such a collection of bad weather as the Graf Zeppelin encountered," he said, "of course is not an everyday occurrence. In normal weather, the Zeppelin should span the ocean easily."

"From an expert viewpoint, it would be an interesting thing to have the worst weather imaginable, for it proved that the airship can do what the aeroplane cannot possibly do, go a long distance out of the way of a storm; or, if caught in it, merely drift until it blows over. The Graf Zeppelin was delayed in its arrival longer than expected. But what of it? Why apply different standards to an airship than to an ocean vessel. The big greyhounds, recently have been from 23 to 36 hours late. Yet nobody has found fault with them."

"No airplane can afford to fly great distances to evade storms, because its fuel supply is too limited; also, it cannot have conveniences for weather observations which the gondola of an airship affords."

Asked whether he thought Dr. Eckener had possibly yielded to pressure and started at an inadvisable time, Captain Bruns replied: "I don't think so; on the contrary, Dr. Eckener undoubtedly said to himself, 'If I can only get the Zeppelin out of the hangar, I can fly in any kind of weather.'"

### NEW BEAUTY FOR YOUR CLOTHES By Mae Martin

You can look attractive and stylish on less. Learn how to give new beauty and variety to your dresses and add individuality and charm to things around the home by the quick magic of tinting and dyeing. Perfect results are possible only with Diamond Dyes. Each package represents the perfection of 50 years of dye-making. They never streak, spot or run. They are real dyes, like those used when the cloth was made.

Diamond Dyes are easy to use. The "know-how" is in the dyes. Fashionable tints appear like magic right over the out-of-style or faded colors. Insist on Diamond Dyes and save disappointment. "Color Craft," my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

### Wonderful Future For Canada

Lord Peel Sees Great Things In Store For This Country

"We see developing here a vigorous and varied civilization and we see a people growing with a clearly marked individuality of their own," said Lord Peel, grandson of England's Robert Peel and leader of the Empire Parliamentary Party, just before his departure for the Maritime Provinces. "We have fallen in love with this country and regret to leave these fertile plains and the bright stimulating air. We all foresee a wonderful future, even beyond the visions of the first pioneers. We believe the country is moving along right lines and it is only a matter of time until the ambitions of the most far-seeing are accomplished."

An Oil Of Merit.—Dr. Thomas' Electric Oil, is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

"What are you doing with that red lantern?" "Oh, I just found it. Some careless fellow left it beside a hole in the road."

Minard's Liniment for aching joints.

Lindbergh Going To Turkey  
Mrs. Evangeline Lindbergh, according to a dispatch sent by the Constantinople correspondent of the Egyptian Daily newspaper Ahram, has said that her famous son, Col. Charles A. Lindbergh, intends to visit her shortly in Turkey. The two will make an aerial journey to Syria and Jerusalem, to visit the holy places of Christianity.

When Noah sailed the waters blue He had his troubles, same as you. For forty days he drove the Ark Before he found a place to park.

### Nansen Believes Arctic Route Most Favorable

Explorer Planning Zeppelin Flight Between Europe and United States

A Zeppelin flight between Europe and the U.S. by way of the Arctic regions in order to determine the practicability of that route is now being actively prepared by a committee under the chairmanship of Fridtjof Nansen, noted polar explorer. It is believed that weather conditions will be more favorable in the Arctic than over the regular North Atlantic course.

The Zeppelin will be commanded by Captain Walter Bruns, secretary of the Society of Arctic Research. It is understood that the coming aeronautic convention in Berlin will fix the date for the Arctic flight, which probably will be next May or June.

Three Russian scientists, Prof. Wiesse, meteorologist; Prof. Schmidt, biologist and Prof. Isatchenko, microbiologist were in Koenigsberg recently, en route to Berlin, and discussed plans for the expedition.

### Ludendorff Is Worried

General Eric von Ludendorff, former quartermaster-general of the German army is reported to have appealed to President von Hindenburg for help against Free Mason lodges which he claims have "passed a death sentence upon me and my revelations of their pernicious methods."

Minard's Liniment—Popular for 50 years.

Senora Alice Cunha Machado was free on a writ of habeas corpus because the Supreme Court listened to her plea that her child did not deserve to be born in jail.

### Freedom From Insect Pests

Loss From Insects Has Been Very Light In Western Provinces

General freedom from insect pests in the western provinces is reported by the Dominion entomological branch. Grasshoppers which in former years worked havoc in the crops have been found scarce this year. The sugar beet crop in southern Alberta is stated to have suffered to some extent from the red-backed cutworm but the control campaign instituted by the department has localized the infestation. In the same province the alfalfa crop has been attacked by the Bertha army worm. Dusting of the crop is expected to eradicate the pest. Losses from insects are generally small, officials of the branch indicate.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

### Nothing Else But

A well-known comedian is very proud of his three beautiful and talented daughters.

One day an acquaintance and admirer of the comedian was talking to him about the family.

"A funny thing," he remarked, "you have nothing but those three girls."

The comedian looked at his friend in astonishment.

"Nothing but girls!" he echoed. "Why, my dear old chap, I wish you were right. As it is, we've nothing but boys all over the place."

ago—

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

### Real Foundation of Modern Business

The so-called practical man of business, the financier, the farmer, during the many decades of the past has been inclined to regard the scientist as hopelessly impracticable, a dreamer, a faddist. Within more recent years marked change in this respect has taken place, and today the scientist, the chemist, the laboratory research worker, is recognized as among the most practical and essential of the world's workers.

To the great universities of the world, and to Governments must be credited in large degree the recognition now accorded to the scientist, while many of the world's foremost industrial concerns now regard their research departments as being among the most profitable departments of their great enterprises.

A recent article by Dr. E. E. Free in "Chemical Markets," New York, declares that science earns for the United States more than thirty billion dollars a year, or nearly half of the national income. It has, he says, doubled the productivity of agriculture and more than quadrupled that of mining. Continuing, Dr. Free writes: "Surely the business men of America ought to be convinced by now that it is worth while to exhaust every one of science's industrial resources; yet the surprising fact is not only that these resources are unexploited, but that only a small fraction of them have been put to work. Not a tenth of the facts that scientists know are being used. The rest of them lie idle in the heads of professors or in the unread pages of scientific books."

Somewhat ago a gentleman named Dudley became a chief chemist of one of the large American railways. He devised methods of testing coal and coke, and lubricating oils, and saved millions of dollars for his road. He helped the steel people find out how to make more lasting rails. He invented cheaper and better paints. He suited the available water supplies to the engines, and saved millions of boiler tubes from being burnt out or corroded. It is estimated that the scientific improvements devised by Dr. Dudley and his successors on other railways have saved more money than all the railroad wages ever paid in the United States.

Sometimes a scientific problem solves itself as if by magic. The origin of the potash industry is an example. The salt miners of Germany a generation ago were bothered greatly by some bitter, evil-tasting stuff mixed with the salt they were trying to mine. This bitter stuff had to be taken out, but if they piled it up anywhere the rain always washed some of it down into the rivers where it spoiled the water and poisoned the fish. Then a great chemist, Dr. Justus von Liebig, happened to hear about this worthless stuff. He found out there was potash in it. He knew that crop plants need potash—that it could be used as a fertilizer. He suggested this to the farmers of Germany. Now the potash industry is one of the greatest in the world. The useless, bitter stuff became the chief assets of the mines.

Trains of sulphuric acid and arsenic used to be blown out of the smoke stacks of copper smelters, sometimes killing animals and crops on neighboring farms. A scientist built an electric apparatus which collects these poisonous particles out of the smelter smoke. The apparatus is now in use all over the world, and the sulphuric acid, instead of floating out to damage the farms, is used in chemical industry, while the arsenic has become the chief reliance of the scientists who are fighting the boll-weevil, which threatens the destruction of the cotton plantations of the southern states.

In like manner we have the story of the botany professor who cleared the western United States irrigation ditches of a weed that was choking them and compelling the farmers to employ a man night and day to clear the intake of the pipe line. "Suspend a few crystals of copper sulphate in the ditches, in little canvas bags," he advised. The weeds died and disappeared in a week. This scientist knew that copper was especially poisonous to that kind of weed. His practical knowledge increased the wealth of the whole irrigated region.

In Saskatchewan a clay-working industry was having trouble with its raw products. One of the professors of the University of Saskatchewan was called in, and as a result of his knowledge, investigations and tests, he found that the correct mixture of clays was not being made. He found a remedy, and the industry is now on a paying basis and expanding its operations.

The battle against rust in wheat and other parasites, the removal of moisture from wheat without impairing its milling and baking qualities—these and other important subjects are receiving the attention of the scientists of Canada, and their solution will mean hundreds of millions of dollars to the farmers of the Dominion.

All of which only goes to demonstrate that every industrial interest in Canada, whether it be in the manufacturing class or in the work of production from the farm, the mine, the forest or the fisheries, should strongly support the present move for larger and more extensive research work in this Dominion. And of all classes, the farmer will probably prove to be the greatest gainer.

#### Alberta Crop Yield

It is estimated that the crop yield for the southern portion of Alberta will amount to 40,000,000 bushels. It has been estimated that the total yield for Alberta will be in the neighborhood of 200,000,000 bushels, but some officials say that 180,000,000 bushels will be the extent of the yield.

Little did our grandparents think the day would ever come when the steering wheel would be the family circle.

#### New Match Company

The Columbia Match Company of Canada has taken out a Dominion charter with the purpose of acquiring control of the Columbia Match Company of Cleveland and of erecting and operating a plant in Montreal.

Bing: "What! You and your wife never quarrel?"

Wing: "Well, we haven't quarrelled for three weeks."

Bing: "How's that?"

Wing: "We're not on speaking terms."

### Shampoo Yourself With Cuticura Soap

Anoint the scalp, especially spots of dandruff and itching, if any, with Cuticura Ointment. Then shampoo with a suds of Cuticura Soap and warm water. Rinse thoroughly. A healthy scalp usually means good hair.

Sample Each Free by Mail. Address Canadian Depot: Cuticura, Ltd., Montreal. Price, Soap 25c. Ointment 25c. and 50c. Jar 50c.

### Honor For Lost Fliers

Monument On French Coast Dedicated To Memory Of Nungesser and Coli

A monument honoring the memory of Captain Charles Nungesser and Captain Francois Coli has been dedicated at Etretat, where the French airmen left the coast of France on their ill-fated attempt to fly to New York more than sixteen months ago. It bears the inscription:

"To the First Who Dared."

At the base of the column, which resembles an obelisk, are marble figures, three times life size, representing the two flyers. The monument has been erected on the cliffs at Etretat at the point over which Nungesser and Coli in their plane "White Bird" passed on May 8, 1927, before they disappeared in the west. On the front are engraved the words: "Nungesser and Coli, May, 1927." The inscription on the reverse side recalls their attempt.

### WEAK AND NERVOUS

#### A Condition Always Due To Thin, Watery Blood

Thin blood and weak nerves generally are found together. Red blooded people seldom complain of nervousness. The reason is that the blood feeds the nerves and keeps them toned up to do the work nature intended. When the blood is thin and weak it fails in this important function and nervous troubles follow. The following case will interest those who need a tonic for the blood and nerves. Mrs. D. Veno, Union Square, N.S., says:—"With a feeling of gratitude I write to tell you what Dr. Williams' Pink Pills did for me. I had become badly run down, and reached the stage when I could not do my housework. I was not only weak, but my nerves seemed completely shattered. The least noise would startle me and I was subject to nervous headaches. Worse still, I could not sleep at night. Perhaps I would get an hour or two sleep, and then lie awake for the rest of the night. I had reached a stage when I actually feared I would lose my mind. Up to the time I decided to take Dr. Williams' Pink Pills, nothing I had taken seemed to do me any good. I got a few boxes of these and soon there was no doubt they were the medicine to help me. As I continued the use of the pills I gradually grew stronger, ate better and could sleep at night, and now I am as well and strong as a woman could wish to be. I hope some other weak, nervous person will be benefited by my experience."

Dr. Williams' Pink Pills are sold by all medicine dealers or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Drawback To Ocean Service

#### Airplanes Forced To Take Fuel For Entire Trip

Sir Eric Geddes, chairman of Imperial Airways, Ltd., states a scheme to establish an air service between England and India is now being organized, and it is hoped that within 18 months machines will be taking passengers from England to Karachi in five or six days.

On the subject of trans-Atlantic flight Sir Eric said an ocean service was not now commercially possible, for whereas on the projected Empire service the machines could be re-fueled at intervals, the trans-Atlantic flyer had to take all the necessary fuel with him.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

### To Serve One Customer

#### Paris Store Opened For Sultan Of Morocco To Shop

One of the world's largest department stores ran full blast for just one customer recently.

Si Moulay Hemada, Sultan of Morocco, wanted to buy a thing or two and he insisted on doing his own shopping. His wish was a command to the Printemps store in Paris and for an hour, in the early evening, during the Sultan's recent incognito visit to France, everyone of the hundreds of clerks stood behind counters, scores of floorwalkers were at attention, and managers and French secret service men peered from behind piles of goods, while the young ruler, with his Grand Vizier, wandered about, buying everything that pleased his eye, leaving it for the Grand Vizier to foot the bill.

An anti-aircraft shell, thought to be live, was unearthed by workmen excavating the roadway at Queen's Gate, Kensington Gardens, in London.

Minard's Liniment for aching joints.

Each of the continents has one or more towns bearing the name of Rome.

### Transform Cadillac For Railway Service

#### Canadian Pacific Uses High Power Sedan For Inspection Work

A high power Cadillac sedan specially equipped with flanged steel tired wheels has just been issued from the Angus shops of the Canadian Pacific Railway at Montreal for the use of the Engineering Department of the company. Capable of travelling on the rails at as great a speed as upon the road, the machine will be used for inspection trips on C.P.R. lines throughout the country. Service conditions are harder on the tracks for braking, and there are three systems on the car; the ordinary foot brake operating on the rear wheels, the conventional emergency brake, and a special supplementary brake applied by turning the steering wheel, acting through brake-shoes on the front wheels. The axles have been changed, the front axle being rigid and more rugged, and the rear axle, instead of being mounted in conjunction with the differential, has had the differential removed and replaced by a one-piece alloy steel axle. This is driven by a single gear with a ratio of 4 to 1, in place of the ordinary differential ratio of 4 and ten eighths to 1.

The wheels themselves are of special design and are equipped with rubber insulation between the steel tyre and the wheel centre in order to deaden shock at rail joints, switch points, diamonds and crossovers. The lighting system, moreover, has been supplemented to comply with railroad regulations.

The car is a comfortable sedan model and will enable officials of the Canadian Pacific's engineering department to cover great distances in a short time on their inspection trips under any weather conditions. It is the only machine of the kind at this time officially in the company's service, although other smaller motor cars on rails have been improvised in other parts of Canada.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Electric Oil in the treatment of many ailments would not be without in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is an inexpensive medicine. So, keep it at hand, as the oil for it may come most unexpectedly.

### Automatic Gear Shifting

#### New Device Developed In England To Solve Motor Troubles

The London Daily Mail says that a "motoring development of first rate importance" in the form of an automatic gear-shifting device has been adopted by one of the leading British manufacturers after successful tests over 50,000 miles.

By this device a driver moves a pointer on a quadrant on his steering wheel to the desired speed designation, steps on a pedal, and the gear changes automatically, smoothly and silently.

### Minard's Liniment for sprains.

First Film Actress—"Aren't you satisfied with one husband?"

Second—"Yes—but unfortunately he's not mine."

### SUMMER COMPLAINT

#### Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved.

I also found it a grand remedy for cramps, and would not be without a bottle of it in the house, for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

W. N. U. 1753

### WOULD ELIMINATE LEVEL CROSSINGS

Important Announcement Is Made At Meeting Of Good Roads Association

Regina.—Elimination of the double crossing over railroads on the main highways of Canada is forecast by an announcement made to the Canadian Good Roads Association in convention at Regina by Hon. T. C. Norris, recently appointed to the Board of Railway Commissioners.

Mr. Norris's statement was to the following effect:

1. That the Board of Railway Commissioners will give a broader interpretation to the act respecting the railway grade crossing fund.

2. That by legislative enactment at the last session of the Dominion Parliament the board may utilize forty per cent. of the total amount of the fund up to \$100,000.

3. That the board will work in conjunction with all organized bodies in the direction of development of good roads and the removal of the level crossing.

Mr. Norris stated that because of an amendment to the act respecting this fund made last session it is now possible for the board to associate itself with railway companies, governments and recognized organizations in the direction of road development in the doing away of double crossings generally by being in the position where it deems it right and proper, of contributing forty per cent. of the cost up to a maximum of \$100,000.

"What this really means," said Mr. Norris, "is that there are three pay bosses. When you can divide the expenses of diverting main highway traffic from these double crossings, building subways and overhead bridges to avoid these terrible level crossing accidents, between the railways who have been always very fair and anxious to co-operate with the local government and the board, you have three pretty good pay bosses and we should not leave any danger at any when you have three organizations like that co-operating."

### Unusual Linen Cloth

#### Design Woven Into Border Shows Scenes In Canada

We read recently of a novel white linen table cloth that is something entirely new. The keynote of the design woven through the fabric, is "Canada!" Fragments of north scenes, the Muskoka district, with the reflection caught right into the cloth of pine trees and little lakes, great antlered moose, fearsome-looking bears, and then the Parliament buildings at Ottawa, the shrine at St. Anne de Beaupre, crests, maple leaves, and the design is created so cleverly that it borders the cloth most effectively. The finest quality of Irish linen has been used to fashion this unusual cloth.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Exterminator.

### Entertained War Veterans

#### Belgium Honors Badly Wounded British Soldiers

Forty disabled British ex-soldiers were recently the guests of the British Disabled Soldiers' Association, Antwerp, who asked the British Legion to select a party of the most badly wounded men in Britain for a ten days' tour in Belgium as an indication of Belgium's admiration for, and gratitude to, the British Army.

The whole of Belgium's official life was represented in this feting of British heroes, who were selected by the Legion irrespective of social standing or rank. Some were so badly disabled that the War Office had sent with the party a detachment of the R.A.M.C. to attend to them on the journey. Practically all the men had lost limbs.

### Will Continue Confederation Train

As a result of the great increase in winter travel between Ontario and the prairie provinces, the "Confederation," the Canadian National Railway, passenger and express which now runs between Toronto and Vancouver, linking these cities with Brandon, Regina, Saskatoon and Edmonton will operate as far west as Edmonton until January 5.

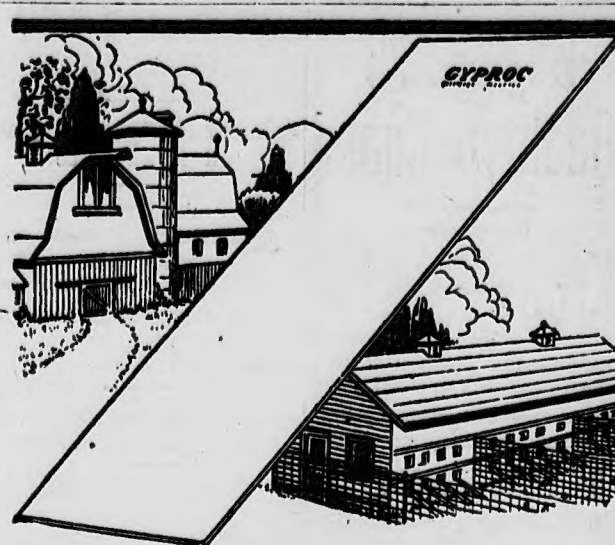

"What sort of face powder does your mother want, my girl?"

"Anyfink wot will cover up a black eye, sir."

Minard's Liniment—Popular for 50 years.

"Well, Polly, how do you like your new teacher?"

"I half like her and I half don't like her. But I think I half don't like her."

### "Modernize" Your Farm This Modern Way

Nearly every building on the farm can be greatly improved and "modernized" by Gyproc.

This famous wallboard is recommended by leading contractors for both new and old construction because it gives advantages offered by no other material—fire-safety, rigid strength, economy and cold and heat resistance.

All these vital advantages! And you get them for nothing—because Gyproc costs no more than products that have none of Gyproc's remarkable qualities.

Gyproc makes durable, permanent walls and ceilings in less time and at less cost. Gyproc Joint Filler on the joints assures a smooth, flat surface which takes any decoration—particularly suitable for Alabastine.

**SEND FOR FREE BOOK**  
Canada Gyproc and Alabastine Limited, Winnipeg, Canada.  
Please send handsome free booklet, "Walls that Reflect Good Judgment," which contains valuable information on Gyproc for farm use.

Name.....  
Address.....

### GYPROC Advantages for Farm Buildings

Easy to use.  
Low cost.  
Workable as lumber.  
Cannot warp, bulge, crack, shrink or burn.  
Takes any decoration.  
Resists heat and cold.  
Vermin proof.  
Eliminates repairs.  
Protects your stock.

Ideal for lining garages, poultry houses, barns, grain bins and other farm buildings.

Especially suitable for converting attics and basements into extra rooms.

### "EMPIRE"

# GYPROC

Fireproof Wallboard

### Radio May Control Street Cars

Radio experts prophesied a day when street cars and aeroplanes would be operated by distant radio control, following a demonstration at Chicago in which a surface car was operated by wireless from an automobile.

Ballplayer: "We gave the umpire fifty bucks to let us win the game."

Friend: "And still you lost?"

Player: "Yeah; the umpire was crooked."

A geographical mile is the length of one minute of latitude.

### Humane Society Awards

The following were among the awards by the Royal Canadian Humane Association recently announced: Medals, David Johnston, Brooksby, Saskatchewan; John D. White, Vancouver; John McHugh, Yukon Territory; Margaret Martin, Waterton Lakes, Alberta. Parchment certificates, Howard Mayers, White Rock, B.C.; Mary and Victoria Barrowman, Kaslo, B.C.; and W. H. Hepher, Powell, B.C.

Happiness and misery are the names of two extremes, the utmost bounds whereof we know not.

# ASPIRIN

To break a cold harmlessly and in a hurry try an Aspirin tablet. And for headache. The action of Aspirin is very efficient, too, in cases of neuralgia, neuritis, even rheumatism and lumbago! And there's no after effect; doctors give Aspirin to children—often infants. Whenever there's pain, think of Aspirin. The genuine Aspirin has Bayer on the box and on every tablet. All druggists, with proven directions.

**Physicians prescribe Aspirin; it does NOT affect the heart**

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

### USING THE SCHOOL HOUSE

In many country communities it is  
becoming more and more the custom  
to make use of school buildings for a  
variety of helpful purposes, in addi-  
tion to that for which they are pri-  
marily intended.

Where no other building is avail-  
able, the school house affords a con-  
venient place for pleasant and pro-  
fitable gatherings such as men's  
and women's clubs, debating societies,  
singings, public speaking, entertain-  
ments and the like.

While practically every school  
house is utilized for some of these  
purposes in many communities a  
complete winter program is planned,  
so as to make it a regular social  
center, around which all neighbor-  
hood activities revolve.

This tends to foster a spirit of co-  
operation and neighborliness, which  
is extremely beneficial. With the  
advent of radio, these gatherings  
may have music and other features  
of broadcast programs to enliven the  
evening, at little expense.

By systematically using these  
means so readily at hand, the coun-  
try school house may greatly contrib-  
ute to the attractiveness of rural  
life.

### BLINDFOLDED SMOKERS

Can you pick out your favorite  
cigarette by its taste and smell if  
blindfolded while smoking several  
different kinds? The question has  
been raised recently through claims  
made in advertisements that this can  
be done by users of a certain brand.  
According to Louis Goodman who  
made exhaustive tests covering two  
months with 20 confirmed smokers,  
these smokers distinguished their  
favorite brands only once out of eight  
times while blindfolded. Pure guess-  
work would have given correct an-  
swers oftener than that.

He also found that the smokers  
could seldom tell the difference be-  
tween cigarettes made of domestic  
tobacco and those containing straight  
Turkish. After smoking three of his  
favorite brands, one smoker offered  
to bet that neither of the three were  
of that brand, and so on.

As a result of his experiments  
concluded that the preference of a  
smoker for this or that brand is due  
to imagination, probably stimulated  
by advertising. Try the blindfold  
test on yourself if you don't believe  
him.

### ECHOES OF GLEICHEN TWENTY YEARS AGO

**Taken From The Gleichen  
Call, 1908**

Born at Gleichen on Oct. 14th to  
Mr. and Mrs. Roy Allen, a son.

Chas. Ewing came in from Dorothy  
Monday and will spend the winter  
in Idaho.

Mrs. Foster returned Sunday from  
a visit of two weeks to her sister  
at Medicine Hat.

H. H. Honans arrived Tuesday with  
a party of land seekers whom he is  
showing land near Cluny.

Four of Queenstown's energetic  
farmers arrived with loads of grain  
Tuesday despite the storm.

Geo. Gooderham has left to attend  
the Toronto University after visiting  
his home for a few months.

Mrs. Laycock returned last week  
from a visit to Mrs. D. Clark at Crow-  
foot and went to Calgary to visit re-  
latives for a couple of weeks.

Grading has commenced on the new  
road up the hill on the south side of  
the new Bow River bridge.

A Werts, of Spokane, has opened  
up tonorial parlors at the bowling  
alley and being an expert in his line  
is already doing a fine business.

W. Broughton's horse ran away  
Sunday afternoon near the Palace  
Hotel, but did little damage other than  
kicking the shafts off the rig and giv-  
ing him a nasty kick on the hind.

The friends of Mr. and Mrs. R.  
Shore, of Queenstown, will be pleased

to learn that their little child, who  
has been seriously ill for sometime is  
rapidly improving.

The C. P. R. are taking practically  
all their samples of grain from Glei-  
chen this year for their various agen-  
cies throughout the United States for  
exhibition purposes.

Last week a prairie fire burned  
many miles of range and destroyed  
many stacks of hay for the ranchers.  
Among the heavy losers were John  
Morton, T. M. Gibson and the Two  
Bar ranch.

One day last week a Chinaman  
cook at one of the ditch camps north  
of town undertook to settle a dispute  
with one of the men with a butcher  
knife, and as a result the Chinaman  
was brought to town for medical  
treatment with his face badly punc-  
tured.

Louie Aasgard of Queenstown,  
went up to Calgary last Friday night  
and to the surprise of his many  
friends returned with a bride, in the  
meantime having married Miss Ade-  
line Herman, whose home is also at  
Queenstown. The happy couple on  
their return to Gleichen were the re-  
cipients of many congratulations and  
not a few handsome presents. The  
Miss Daltons of Queenstown attended  
the bride.

Mr. MacDonald, of the contracting  
firm of MacDonald and "Addy," was  
brought to town in a serious con-  
dition. It appears he was preparing  
to blast a rock on some ditch work  
22 miles northeast of town and when  
tamping the powder into the hole  
with a stick it exploded. Dr. Far-  
quharson assisted by Dr. Rose at-  
tended the injured man and found  
the stick he had used was forced up  
into his arm. They removed it and  
it is now thought he will have the  
use of his arm but may lose some fin-  
gers.

### LOCAL HAPPENINGS

The ladies of St. Victor's Church are  
holding their annual sale of work and  
whist drive on Friday, November 23,  
to which all are invited.

The ladies of the Gleichen United  
Church Circle announce their annual  
Xmas. sale of work will be held Sat-  
urday, Dec. 1st.

The Cluny Women's Institute are  
giving a dance for the benefit of the  
Red Cross on Friday, Nov. 16th, in the  
Cluny Hall, and also will hold their  
annual bazaar and chicken supper on  
Saturday Dec. 1st.

On Thurs. Nov. 28, I. D. Macdougall,  
M.P., of Nova Scotia, will address the  
Gleichen Canadian Club on the his-  
tory and development of the Marit-  
ime, discussing the industrial and  
mining situations at the present.

The ladies of the United Church  
Circle will serve a Thanksgiving Sup-  
per in the Community Hall on Fri-  
day evening, Nov. 2nd. After supper  
the Rev. Dickson of Knox United  
Church, Calgary, will deliver a lec-  
ture entitled  
"Canada and Canadians from the  
view point of a Scotman"

Arrangements are being made to  
have Bishop Sherman of Calgary  
deliver an address under the auspices  
of the Gleichen Canadian Club and  
the Chamber of Commerce on Mon-  
day, Nov. 26th, at a luncheon.

When the mind is made up the  
time to hesitate is past.

Good will is the disposition of the  
pleased customer to return to the  
place where he has been well treated.

One of the cleanest cut remarks we  
have ever heard is: "The nice thing  
about telling the truth is that you do  
not have to remember what you did  
say."

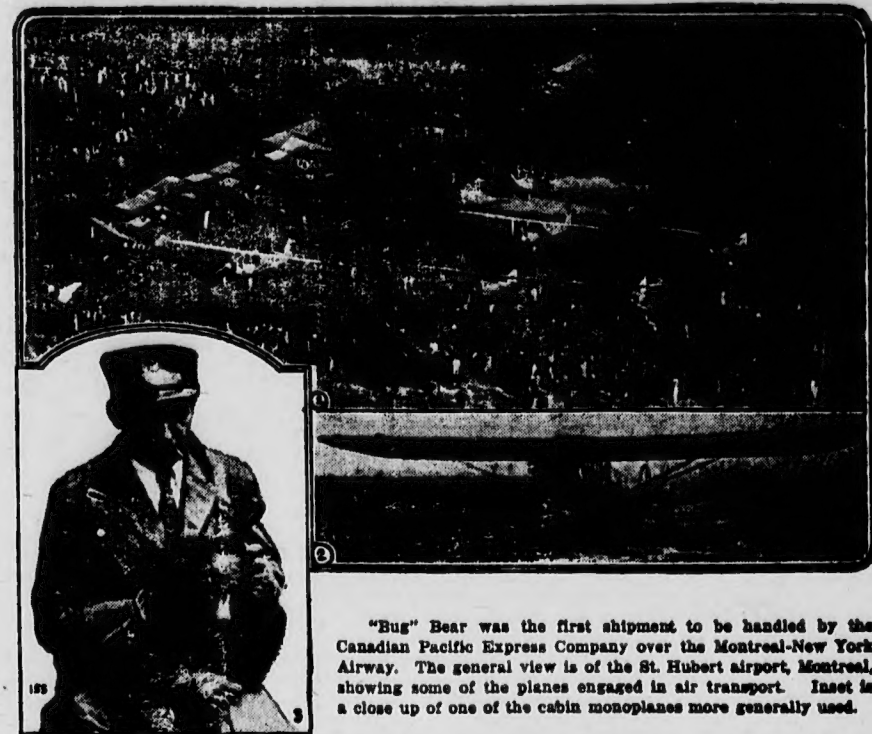

Balilla, an Italian submarine, has  
succeeded in submerging to a depth  
of 331 feet, claimed to be the world's  
record.

High pressure evangelism reached  
its climax in Milwaukee recently  
when Evangelist H. W. Thomas lay  
propped in a coffin and dramatically  
exhorted his hearers to prepare for  
"The Journey We All Must Take."

Tony Augustine of St. Joseph, Mo.,  
after being the victim of pickpockets  
in Poland, had 60 fish-hooks sewed in  
his pockets. In Bremen, Germany,  
he got results, catching two light-  
fingered gentlemen who had slipped their  
hands into his pockets at the same  
instant.

Another tradition goes bloozy. For  
centuries the dove has been hailed as  
the emblem of peace, but now comes

## Argosies of Magic Sails

"Bus" Bear was the first shipment to be handled by the  
Canadian Pacific Express Company over the Montreal-New York  
Airway. The general view is of the St. Hubert airport, Montreal,  
showing some of the planes engaged in air transport. Inset is  
a close up of one of the cabin monoplane more generally used.

"For I dived into the future, far as human eye  
could see,  
Saw the vision of the world, and all the wonder  
that would be;  
Saw the heavens filled with commerce, argosies of  
magic sails,  
Pilots of the purple twilight, dropping down with  
costly bales;"

As he watched the very recent departure of the  
first airplane to take off on the regular daily  
express service between Toronto, Montreal and New  
York, T. E. McDonnell, president and general man-  
ager of the Canadian Pacific Express Company  
thought that in these lines, Tennyson had envisioned  
the present age, when "winged messengers of peace  
and commerce cross the imaginary line unchalleng-  
ed". T. E. McDonnell himself has a vision of the  
future when the travelling and shipping public will  
have a greater "air mindedness" and the service  
which his Company has pioneered will have devel-  
oped into an economic factor of tremendous propor-  
tions. To just what proportions the air express  
service will be developed immediately Mr. McDon-  
nell would not commit himself, but "air transpor-  
tation must be seriously taken into account if one  
would keep abreast of the times" he said. At  
present regular air express service is maintained  
by the Canadian Pacific between Rimouski, Que-  
bec, Montreal, New York, Ottawa and Toronto in the  
east and Winnipeg and Calgary in the west, and  
these routes are very much appreciated and patron-  
ized.

The views of the president of the Canadian Pacific

at a time when air events and features are filling  
the columns of the daily press are not without  
interest. "Aviation as a factor in commercial trans-  
portation has arrived and henceforth must be  
reckoned with on that basis" Mr. Beatty recently  
stated. "We have watched its development with  
keen interest, and while it is not possible clearly  
to see just in what direction or how far progress  
may be effected in the near future, it has already  
taken its place as one of the major transport agen-  
cies. Whatever may happen in the distant future,  
it seems to me that at the present time there is  
little or no prospect of aviation assuming a serious-  
ly competitive attitude towards present day modes  
of transport. It is rather as an auxiliary service  
to railroads and steamships that it is likely to func-  
tion for some time to come. The Canadian Pacific,  
he added, has already recognised this fact by the  
establishment in conjunction with the Government  
Mail service, of an air express service and upon  
the success of this service will hang future devel-  
opments as far as this Company is concerned. In this  
connection, as throughout its history, the Canadian  
Pacific is doing a pioneer work in Canada. We are  
closely watching the development of aviation in the  
belief that Canada with its widely scattered centres  
of population offers a particularly promising field  
for its employment."

Air transport is, of course, faster than any other  
and although the dare devilry of some reckless,  
stunting pilot resulting in injury and loss of life  
has earned front page prominence on occasion, it is  
safer than automobile transport.  
"Argosies of magic sails" is not a distant vision.

# The Greatest Popularity Contest

THE public has judged motor-car  
values. It has staged the greatest  
of popularity contests.

Never has Chevrolet enjoyed such  
whole-hearted public acceptance—  
never before has any low-priced car  
offered such a striking combination of  
great beauty, thrilling performance and  
amazing economy!

To sit behind the wheel is sheer  
delight.

Come in and see the world's most popu-  
lar car. Experience for yourself the  
wonder of its performance. Learn for  
yourself why it is the greatest success  
of the year.

The G.M.A.C. ... General Motors' new delivery payment plan offers  
the most convenient and economical way of buying  
your Chevrolet out of income.

#### CHAPTER IV.—Continued.

In appearance the champion very much resembled an ape. His bullet-like head was close cropped. The small piggish eyes were deep set under overhanging, beetling brows, and the nose was flat like a negro's. His lips were thick, with a repulsive twist that gave his face a sinister look. His massive jaw was purposely left unshaved to rasp the tender skin of his opponent's shoulders in the clinches. His enormous barrel-shaped chest was covered with a thick growth of hair. His shoulders were broad and his disproportionately long arms, heavily muscled, terminated in two thick ham-like hands. He gazed confidently at Donald's corner.

A pasteboard box containing the gloves was tossed to the centre of the ring. There was a stir as the announcer pushed his way through the ropes. Andy crossed the ring to examine the champion's hands for tape and to test thoroughly the new gloves for any trace of sewed in shot or lotion that would cause the eyes to smart. One of Garrieau's seconds was making a similar examination in Donald's corner.

A big man in a wide-brimmed hat, with a mackinaw coat over his arm, came walking down the steps of the arena. The look of astonishment on his face gradually gave place to one of joy. He ran to the ring.

"Donald!" he shouted joyously, as he sprang through the ropes. With a thrill of pleasure Donald held out his hand to Jack Gillis. The big man's face was beaming. "Just got in," he said. "Bin lookin' all over town for you! I come to the fight and—holly mackerel!—here you are one of the fighters!"

Andy noted the glad look in Donald's eyes and he spoke sharply to Donald's seconds, who were for ordering the boisterous visitor out of the ring. The word "psychology" was foreign to Andy, but he knew that Donald's mind had for a moment drifted away from the fight. Donald was surprised to see Douglas greet Gillis warmly as the big man left the ring.

"I have two good friends in the audience, anyway," whispered Donald to himself.

Andy leaned over him, talking in a low voice, giving him comfort and advice. "E'll try right along, Donnie, to get your goat by cursing and using vile language, but don't listen 'im, and don't lose your temper. 'E fights with 'is chin tucked in the 'ollow of 'is left shoulder and 'is neck muscles rigid. It's mighty 'ard to land on 'is jaw with a right. Now the first round," Andy went on, "you just jab 'im light with your left; don't 'it 'ard, just a good snappy

### A Friend to Women

and Cobourg, Ont., Canada.

N. W. U. 1758

"He may be stalling," cautioned his evil-faced manager.

"Huh!" grunted the champion. "I can take all he has in dat left and never feel it. I'm goin' to open up on him de last part of de next round."

The gong rang for the second round.

Donald caught a glimpse of Purcell's face as he crouched in the opposite corner. Such a look of vicious hate shot from his one gleaming eye that Donald shivered.

The rough element began to boo Donald for his running tactics. Some fans feel that they are being cheated out of the price of admission unless they can witness the spectacle of two boxers slugging toe to toe until one goes down. Science counts for nothing with this small minority.

"Whadda ya think this is, a marathon?" they shouted.

"Powder-puff punch!" derided another.

Garrieau suddenly tore in, letting loose a terrific right that would have stopped the bout right then if it had landed. From a clinch Donald looked to his corner. Andy went through the pantomime of shooting a straight left. Donald nodded.

"Powder-puff punch!" again shouted the disgruntled fan.

"Did ya hear that?" hissed Garrieau, twisting his mouth into an apish grin. "Yo can't hit hard enough to break an egg. I'm goin' to fix dose test' for you now." He leered brutally as he tore after Donald, disdainful of the belittled left.

Donald stopped abruptly in his flight and shot a lightning left across to his pursuer's jaw. The champion saw it coming, but too late to block it. He threw his body into reverse, robbing the blow of a great deal of its force; yet enough was left to send him reeling back to the ropes, his head whirling and his knees wobbly.

With a roar the spectators came to their feet as one man. The gong saved Garrieau.

The crowd gave Donald a deafening ovation as he walked to his corner. He looked for his friends and saw Douglas and Gillis locked in an embrace and dancing madly in the narrow aisle.

(To Be Continued.)

### First Parachute Was Used By Frenchman

Successful Drop Made From Considerable Height In 1802

Unquestionably the parachute, nearly in its present shape, is as old as aeronautics. There is supposed to be a picture of one in Venice dating from 1617, and there is a narrative of a French ambassador to Siam in the 17th century, to the effect that a mountebank at the royal court climbed to the top of a tall bamboo and jumped off with two umbrellas to support him. Very likely this is true.

Shortly after the Montgolfier ascents, the French aeronaut Blanchard seems to have made the first parachute experiment in connection with a balloon, but instead of trusting himself to the apparatus he attached his dog.

Possibly because the parachute had been designed for the weight of a man and was thus much too large for the dog, instead of dropping when released, it went up considerably higher than the balloon, then at about 6,500 feet. After a time it came back down near the balloon and the dog got a chance to bark a greeting to Blanchard. At least, that's the yarn that comes to us. Finally Blanchard reached the ground by the gradual descent of his balloon and a little later the dog landed unhurt.

This successful experiment doubtless greatly stimulated the inventors for presently various forms of parachutes were suggested, some of which were actually constructed, and among them some fearful and wonderful arrangements. One of these promptly folded up when released and resulted in the death of its inventor. After this it appears the designers returned to the original umbrella form.

The first successful drop from a balloon at any considerable height appears to be that of the Frenchman, Garnerin, who staged a performance at Paris in 1802. Garnerin cut himself loose at 1,200 feet and luckily managed to land safe and sound.

#### Saskatchewan Crops

Saskatchewan farmers are estimated to have received more than \$308,000,000 for their grain and other crops in the 1927 season, according to a final estimate of the provincial Department of Agriculture. The value of the wheat crop in that year was \$206,474,000, from a total production of 212,880,000 bushels on 4,412,556 acres, with an average yield of 16.4 bushels to the acre.

It doesn't take the student long to reach the age when he thinks the most important thing to pass is the car ahead.

### Trying To Eliminate Hazards Of Submarines

U.S. Navy Will Make Test Of Rescue Apparatus

Stirred by undersea craft disasters that have taken the lives of scores of American officers and men, the navy is making strenuous efforts to eliminate the hazards of submarines by devising and perfecting rescue apparatus.

Many experiments are being made and plans carried out for exhaustive tests to learn what happens when a submarine is stricken below surface. No man has survived a submarine accident wherein the craft was totally disabled and flooded while under water, and none has been able to tell just what occurs under those conditions.

In addition to laboratory experiments, the hulk of the submarine S-4, which took 40 men to their deaths after she was rammed by the Coast Guard destroyer, Paulding, off Provincetown, Mass., December 17, 1927, will be used in rigorous tests off Cape Charles, Va., in October. These tests are to be conducted by Lieut. C. B. Momsen, submarine expert and diver.

Attempts will be made to learn conditions that exist during the wrecking of undersea craft and devise methods of counteracting and preventing them. Naval divers will be placed beside the hulk which will be sunk and flooded. They will then escape through hatches and come to the surface by using the navy's new breathing device, "the lung," and other rescue apparatus developed during the last few months.

### Mark Twain Used Typewriter

First Author To Submit Typewritten Manuscript To Publisher

Mark Twain is said to be the first author to submit typewritten manuscript to a publisher. In the autumn of 1874, Mr. Clemens was strolling down one of the streets of Boston with a friend; he was drawn by curiosity to a strange looking device in the window of a stationery store.

It made a deep impression upon Mark Twain, who purchased this primitive typewriter, and shortly thereafter the manuscript of "Life on the Mississippi" was typed on the machine which he had bought.

**Relieves Asthma At Little Expense.** Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

"And how do you get on with your wife?"

"I've a splendid working arrangement with her. In the forenoon she does what she wants, and in the afternoon I do what she wants."

"Have you anything to say, prisoner, before sentence is passed upon you?"

"No, your honor, except that it takes very little to please me."

### Teeth and Health

Issued by The Canadian Dental Hygiene Council and Published by The Saskatchewan Dental Society

#### TOOTH DECAY

You do not allow your child too many sweets lest they spoil his teeth, and, wisely, you did not let him know their taste too early. But where the harm?

Now, as you have read, no doubt, so called tooth decay is a disease that is incited by bacteria. These micro-organisms have the power of setting up fermentative processes in left-over carbohydrate matter in the mouth, producing acids which attack the tooth substance to dissolve it; in this manner, these organisms gain access through the hard enamel covering.

You perhaps did not suspect the presence of bacteria in your mouth, did you? Yet, a noted authority states that more than a hundred different species could undoubtedly be isolated from a single mouth at one time or another.

Now, of course it is neither practicable nor possible to cut off the carbohydrate food supply, nor to rid the mouth of bacteria for any length of time.

However, nature herself is not wholly defenseless against the situation, for the acid formed is, as a rule, taken up by the saliva and dissipated before it can do injury—excepting where it can be undisturbed as in deep pits or fissures, or beneath food particles that adhere to the tooth when proper mouth toilet is not observed.

But you must do your part by avoiding excessive use of carbohydrate foods such as sugars, starches and allied substances, for the use of a too liberal supply of these is to create a condition that can but invite disaster—especially when proper mouth toilet is not the daily rule.

### A LAUGHING BABY IS A GREAT JOY

What can give more joy in the home than a laughing, happy baby, deep well child makes everyone happy with his tuneful gurgle and bright laughing eyes. It is only the sickly baby who is not a laughing baby, for it is the little one's nature to be happy when well.

Mothers, if your baby is cross, if he cries a great deal and no amount of attention seems to make him happy, give him a dose of Baby's Own Tablets and he will soon be well and ready to radiate that happiness through the home again.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels and sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fevers and correct those troubles which accompany the cutting of teeth and in doing those things—and doing them well—they make baby happy and keep him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Bridge Made Of Mahogany

Mexico Boasts Only Structure Of Its Kind In World

As almost everyone knows, mahogany is among the most costly wood in existence. This tropical material is seldom used in the construction of buildings of any kind. Its principal use is for high grade furniture. There is, however, one bridge in the world made of this wood. The structure is located in the department of Palengue, state of Chiapas, Mexico, a district in the extreme Southern part of the country near the boundary of Guatemala. It is constructed entirely of mahogany except for a few iron supports, braces and nails that are necessary. The bridge spans the Rio Michol, and its total length, including the approaches, exceeds 150 feet. It is fifteen feet wide. None of the timbers in the bridge are sawed, for there are no sawmills in that region. Instead, all the timbers are hewn and split.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holway's Corn Remover.

### Chinese Pirates Active

French Steamer Is Attacked and Captain Made Prisoner

The French steamer Tungyen, which broke down on the Yangtze Kiang, in the vicinity of Fowchow, was attacked by pirates. The pilot was wounded. The captain was made a prisoner, taken ashore and later released. The British steamer Wangtung, with Sir Frederick Whyte, author and editor, and Lady Whyte aboard, was fired on in the Yangtze Gorge by pirates.

Mrs. Gabbins (during spat) — "I never have to eat my words." Husband — "That's fortunate, seeing the doctor has put you on a restricted diet."

#### Minard's Liniment for sprains.

### Made Fortune From Blankets

Inventor Discovered Warmth Of Bed-Covering By Chance

The much appreciated blanket takes its name from Thomas Blanket, of Bristol, England, who was its inventor. During the severe winter of 1840, Thomas, a Flemish weaver settled in Bristol, had fallen on hard times, and found it impossible to sleep because of lack of fuel and scanty bedclothes. In despair he went to his workshop to find something to add to the covering, and chanced upon a piece of rough, unfinished cloth, which had been cast aside. The great warmth he derived from its use suggested the idea of manufacturing similar pieces as winter bedclothes. This he did, gave his name to the article, and soon became rich.

**Headache? Relieve with Minard's Liniment.**

"Did you hear about the defacement of Skinner's tombstone?"

"No, what was it?"

"Someone added the word 'friends' to the epitaph?"

"What was the epitaph?"

"He did his best."

The singing Memnon was a statue in Egypt which gave out musical notes when the sun rose in the morning and as it set at night. After the statue was tipped over it no longer sang.

### Little Helps For This Week

"Let us therefore come boldly unto the throne of grace, that we may obtain mercy, and find grace to help in time of need."—Hebrews iv. 16.

Of what an easy, quick access, My blessed Lord, art Thou! how suddenly!

May our requests Thine ear invade! To show that state dislikes not easily.

If I but lift mine eyes my suit is made; Thou canst no more not hear than than Thou canst die.

—George Herbert.

Prayer is a key which, being turned by the hand of faith, unlocks all God's treasures.—Hannah More.

Excited Person (complaining to postmaster): "And if I don't get better service, I shall give my postal business to someone else."

### CRUMBLY TEETH

Help your children to have sturdy bodies, sound bones and strong teeth. Give them

**Scott's Emulsion**

rich in vitamins. It serves the needs of childhood equally as well as it does grown people.

Scott & Bowne, Toronto, Ont. 25-60

## EVEREADY Layerbilt

There's been a revolution in the science of battery building—Eveready has found a way to give you more battery for your money than you ever bought before!

The new Layerbilt principle can be understood by anyone. It simply gives you more current-making elements by packing flat cells like crackers in a box, instead of using many round cells with waste space between.

You actually get the equivalent of a much bigger battery and, of course, it takes much longer to use it up. That's why you should buy Eveready Layerbilts and save money. Now selling at new low prices. Ask your dealer.

**Canadian National Carbon Co., Limited**  
Vancouver Toronto Montreal  
Owning Eveready Battery Station CKNC, Toronto R206

**RADIO IS BETTER WITH BATTERY POWER**

### Dependable Dollars

FOR people in all walks of life, the most dependable investment is money in a Savings Account. It is always there—always available—never affected by falling markets—always safe and redeemable at par.

Security, coupled with convenience, comprise a dual feature not found in any other type of investment.

You can buy \$1,000 in four years in instalments of \$4.52 a week

11 a.m. Sunday School.

7:30 p.m. Evensong.

Thursday, All Saints Day.

Holy Communion 10 a.m.

Sunday: Cluny school house. Morning prayer at 11 a.m.

"How are you getting along at school, Alex?"  
"Fine. We're learning words of four cylinders now."

The following letter was received recently by a large concern which manufactures corn syrup:

"Dear Sirs: Though I have taken six cans of your corn syrup, my feet are not any better now than when I started."

"Bogorra" admitted Pat, "and fifty per cent of the people up here thought so too."

The Call agrees to print anything you may need at the lowest regular price in any part of Canada.

## Town & District

Go look at Ramsay Mercantile Ltd. window display—it's worth while.

Splendid progress is being made on the sewer to the Eventide Home.

Those who missed hearing Capt. Jos. H. Shaw may well regret it.

A few more such speakers as Capt. Shaw will make the Canadian Club very popular.

After a week of fine weather with frosty nights, a few flakes of snow fell early this morning and it is still quite frosty and cloudy.

The annual meeting of the Meadowbrook Community Hall Association will be held in that hall on Wednesday, November 14th after which a social evening will be held.

The Old-Timers Third Annual Ball and Buffalo Feed is already the talk of the world. Buy your tickets early and look for the prizes. You will like the stunts this year and will sure giggle.

Two papers in one—The Family Herald and Weekly Star, Montreal—one for the farm and the other for the home, both of superior excellence. One dollar a year covers the subscription, or three years for \$2.

The B. E. S. L. boys are holding their annual Armistice and Thanksgiving dance on Monday, Nov. 12, and of course everyone will want once more to dance with the soldier boys. Get your tickets early from any member, and be at the Gleichen Community Hall early that night.

Alex. McRae has returned from Vancouver, where he has been for some months past, and is looking considerably better for the change of climate. However, he says he does not like the continuous rain and fog on the coast and prefers the open prairie and the sunshine.

The great picture "Beau Geste" is coming to the Gleichen Community hall sapphire. The flight of the is the story of the theft of a million dollar sapphire. The flight of the gallant "Beau" Geste and his two brothers under the shadow of disgrace to Africa to save the honor of an English lady and her beautiful niece. The wild career of the Cestres in the Foreign Legion! Picture what's in store for you in this one.

St. Andrew's Church Sunday evening was most tastily decorated for the annual Harvest Thanksgiving service with grain, fruit and vegetables, when the Rev. Mr. Davies, rector of the church, delivered a most appropriate address which was listened to intently by an appreciative audience. Special music was provided for the occasion and very much enjoyed. The success of the Anglican appeal Mr. Davies stated was \$7,000 over the amount asked, and he thought all should be doubly thankful for the abundant crops this year and the hearty response to the Anglican appeal for funds.

A delightful surprise party took place Monday evening in Scotty Cove's headquarters when cards, music and songs (radio) were the events on the program. Blackjack and poker were the games played and during the evening two royal flush hands were dealt. In one hand after considerable money had been put in the pot the reporter foolishly asked which was the highest a flush or a straight, which caused all the players to throw up the ghost and the reporter raked in the pot on a hand that held nothing. The glorious evening came to an end with stories and jokes with Glen singing that beautiful ballad "The Boys of Crawling Valley."

### CARD OF THANKS

We wish to return our heartfelt thanks to the many generous friends who stood by us, with such unvarying kindness during the time our dear father and husband was called upon to suffer. Seldom have any in need of sympathy and the most devoted friendship, received so full a measure of the best fruits of the human heart from neighbors and friends. From first to last it was one unceasing routine of kindness and attention, and our gloom was conquered by the warm radiance of love bestowed upon our dear one. More, we could not ask; more, friendship could not give. Lois Elder and family.

## Since Dobbin Left the Road

20, 25 and 50 miles from Gleichen is only a stones throw and the attraction of trading in the Live Store of

### Ramsay Mercantile Ltd.

have been greatly increased. More Long Distance Buying is going on in our store this season than for many years past, proving that the car and chain stores have not killed the wide-awake country retailer, but largely increased his business.

November Buying and Selling is the Problem now facing us. Turning our big stock of winter goods into cash under mild weather conditions calls for unusual activity and close cut quotations.

### ALL IN FAVOR OF THE BUYERS

Customers who read city store advertisements and who have had our quotations on Mackinaw Coats; Warm Underwear and Shirts, Gloves and Mitts, will note that our prices have got them skinned.

Our sales, this season to date on Children's Coats have been wonderful, and we have a beautiful selection now on hand as a result of late shipments. Keep the kiddies warm, it doesn't cost much to fit them out at Ramsay's.

Particularly fine showing of Ladies and Gents Scarfs now offering. Also a small lot of Men's Night Shirts and Pyjamas, also House Slippers in Child's Ladies' and Gents.

Your dollar will go far at our Grocery Department and no sale offerings can undersell Ramsay's. You can bank on that. Everything new and tempting in No. 1 Groceries, you can find at our busy counters and more kitchens are supplied from Ramsay's than from any other store in the district.

The past few days have cleaned up most all our Ladies Coats—new arrivals here for Saturday.

Our figures on Overshoes are the closest cut for many seasons. We have a record price on same.

A PARTING SHOT Have you paid your 1928 account at Ramsay's? If not, why not?

J. VAN TIGHEM,  
Strathmore, Alberta,  
October 17, 1928. 32

### FOR SALE

One of the best flocks of Grade Oxford ewes in this part of the province for sale. 50 ewes and 50 lambs to be sold either with or without the ewes. All black grey face. Most of them practically pure bred. 17 yearling, balance 2, 3 and 4-year-olds. Apply to Mrs. David Nelson, phone R113 Cluny, Alta. 32

One of the cleanest cut remarks we have ever heard is: "The nice thing about telling the truth is that you do not have to remember what you did say."

Good will is the disposition of the pleased customer to return to the place where he has been well treated. When the mind is made up the time to hesitate is past.

## SERVICE

That's our middle name whether you want gasoline, kerosene, distillate, coal or hauling done, just give us a ring and see how quickly we respond. Even during the harvest rush we are prepared in stock and truck facilities to handle our business 100 per cent satisfactory to our customers.
